WALTER VANDELOO, PE
COMMISSIONER

DANIEL C. MIRABILE
DEPUTY COMMISSIONER

October 11, 2011

Mr. David F. Ingalls, PE
Ingalls & Associates
2603 Guilderland Avenue
Schenectady, NY 12306

Mr. Ingalls,

Thank you for following up and resolving questions regarding traffic volumes and access for the currently proposed Womanin "1700" Planned Unit Development.

This confirms that as now proposed the project conforms with County Public Works requirements for access at the County and New York State Highway systems.

I note that this project represents efforts to implement "Smart Growth" concepts: It is proximate to an artery on the State Highway System, US Route 20, and to the bus routes that transit Route 20; Also, the project will provide pedestrian access to a group of adjacent retail and commercial uses.

This Department supports efforts to implement Smart Growth projects, consist with Local Municipal requirements and guidelines.

Again, thank you for speaking with me regarding the plans for this project.

Sincerely,

Walt VanDeLoo, PE
Commissioner
